Ekin RED EAGLE (OS)

Safe City Operating System

As the developer of leading products including their software, hardware and design, Ekin provides complete safe city solutions and ensures these solutions to work together on a single platform.

Ekin Red Eagle OS, a "Safe City Operating System", operates all the systems in the city from a single point, communicates with these systems, generates alarms and takes action in case of an event. Even different cities can be operated from a single center with Ekin Red Eagle OS.

Ekin PATROL G2

The First and Only Mobile Smart Patrol of the World

Multiple international award winner Ekin Patrol G2 is a high-tech, mobile enforcement product that performs number plate recognition, face recognition, speed and parking violation detection on the move. Being designed as a light bar and suitable for vehicles such as police cars or fire engines, Ekin Patrol G2 is aimed to enhance a high level of city safety.
